### **About the artist:**

Keith Kaminski and his wife Sandy moved to Seattle in 2005 by way of Chicago. The abundance and beauty of trees here in the Pacific Northwest has both inspired and compelled Kaminski to keep his finger on the pulse of the green community and the innovations they aspire to bring to market. While his roots are in oil painting, his medium of choice has recently become sustainable furniture design and fabrication.

Kaminski is an award winning oil painter and photographer who received a bachelor of fine arts degree from Columbia College Chicago. His work has been included in auctions and exhibitions in Seattle, Chicago, New York and Berlin. By day, the artist works as an interactive producer in advertising.
